- 104 - Slab** (*subgrade & base, grade beams, piers, etc.*)
- 105 - Framing** (*roof, walls, ceiling, floor framing, nailing, and lintel*)
- 106 - Insulation** (*insulation against unconditioned space*)
- 107 - Final** (*All code items completed*)
- 108 - Exterior** (*Windows set and flashed properly, prior to installation of siding*)
- 109 - Pre-Insulation/Energy**
- 110 - Above Ceiling** (*Necessary inspection above suspended ceiling if not done during framing*)
- 111 - Monolithic Slab**
- 112 - Miscellaneous**

Electrical Inspections (Group 2 Types of Inspections)

- 201 - Service** (*increase in meter size & energy usage*)
- 202 - Rough** (*inspection of wires in walls, ceiling or floor before they are concealed*)
- 203 - Final** (*All code items are completed*)
- 204 - Water Heater**
- 205 - Above Ceiling** (*Necessary inspection above suspended ceiling if not done during framing*)
- 206 - Bonding**
- 207 - Temporary Service** (*Previously called, “Saw Service” for use by contractors during construction*)
- 208 - Provisional Power** (*Previously called, “Temporary Power”. Available for results only.*)
- 209 - Low Voltage Rough**
- 210 - Low Voltage Above Ceiling**
- 211 - Low Voltage Final**
- 212 - Photovoltaic Rough**
- 213 - Photovoltaic Final**
- 214 - Miscellaneous**
- 215 - Under Slab**
- 216 - Provisional Power Request** (*Previously called, “Temporary Power”. This is a request only*)

HELLO SYSTEM (336) 883-3026

Mechanical Inspections (Group 3 Types of Inspections)

- 301 - Rough (*usually to inspect ducts, pipes, equipment before it is covered or concealed*)
- 302 - Final (*All codes items completed*)
- 303 - Gas Pressure Rough (*Gas line rough-in before covering*)
- 304 - Gas Pressure Final (*final test and release of gas meter*)
- 305 - Provisional Power (*Previously called, "Temporary Power". Available for results only*)
- 306 - Above Ceiling (*Necessary inspection above suspended ceiling if not done during framing*)
- 307 - Water Heater
- 308 - Miscellaneous
- 309 - Under Slab

Plumbing Inspections (Group 4 Types of Inspections)

- 401 - Sewer (*Usually pipe, underground, building to sewer tap*)
- 402 - Under Slab (*Usually pipe under concrete slab*)
- 403 - Top-Out (slab) (*Usually pipe above slab to roof*)
- 404 - Rough (*Usually pipe, crawl space to roof*)
- 405 - Final (*All code items completed and water & sewer replacement*)
- 406 - Water Heater
- 407 - Storm Underground
- 408 - Water
- 409 - Provisional Power (*Previously called, "Temporary Power". Available for results only*)
- 410 - Miscellaneous
- 411 - Interceptor

Site Inspections (Previously called, "Zoning Inspections" Group 5 Types of Inspections)

- 501 - Zoning-Final (*Includes Landscaping and all local code items*)
- 502 - Sign-Final (*height, location and square footage regulations*)
- 503 - Backflow (*backflow*)
- 504 - Driveway (*location, flare, and width of forms*)
- 505 - Sidewalk (*location and width*)
- 506 - Water Quality Device - Final (*location and design of permanent water quality device*)
- 507 - Zoning-Design Review (*building façade material type and layout*)

Fire (Group 6 Types of Inspections)

- 601 - Rough
- 602 - Final
- 603 - Above Ceiling (*Inspection of wiring or piping above suspended ceiling if not done during rough*)
- 604 - Sprinkler Rough
- 605 - Sprinkler Final
- 606 - Alarm Rough
- 607 - Alarm Final
- 608 - Suppression Rough
- 609 - Suppression Final
- 610 - Tent Final
- 611 - Miscellaneous
